## SKILLS SUMMARY

## CERTIFICATION

-  The Web Developer Bootcamp 2022 by Udemy
-  JavaScript Algorithms and Data Structures Masterclass by Udemy
-  SQL Masterclass: SQL for Data Analytics by Udemy
-  Certified SolidWorks Associate (CSWA) by Udemy

## AREA OF DEVELOPING

- JavaScript
- Angular 12+

## PERSONAL TRAITS

- Following directions
- Engage from the beginning
- Problem analyzing attitude

## INTERESTS

- Learning by internet surfing
- Cooking

# AGATHIYAN VENKATRAMAN

## Web Developer

### PERSONAL PROFILE

Experienced Web Developer with a demonstrated history of working in the product industry. Admirable expertise in Responsive web application development, JavaScript and Angular. To collaborate with a talented team, continuously learn and grow, and contribute to the success of organizations

### WORK EXPERIENCE

#### Programmer

Chainsys Corporation | July 2021 – Present

- Building responsive web app with self-contained, reusable, and testable modules and components
- Cooperating with the back-end developer in the process of building the RESTful API

#### Product: Smart App Builder | Chainsys, 2021 - Present

- Smart App Builder is a low code / No code platform for building powerful Web and mobile applications. With the help of drag and drop design we can easily prepare the data model and forms as our requirements. If needed we can able to modify the pages with developer environment concept. It uses dataZap's(ETL) ready to use Smart Data Templates for Data Extraction, Data Loading and Data Mappings with target enterprise applications.

#### Shell Project | Chainsys, 2021 - 2022

- We created the Time management and tracking web and mobile based application for shell. We have enabled notification,calendar and workflows for this application. All the approves will be done in both web and mobile.

#### Collins Aerospace Project | Chainsys, 2021 - 2023

- Project management application and dashboards for Collins aerospace system. They requested a forms to show their fight details with running status. Here we have enabled high security configurations and deployments

#### Lecturer

MASS Polytechnic College | June 2019 – March 2021

- Trained SolidWorks and Educated Strength of Materials, Design of machine elements for undergraduate students as a part of curriculum of the Mechanical Engineering

### PRIMARY SKILLS

- Having 2+ years of experience in HTML, CSS3, and JavaScript
- Experience of front development frameworks like Angular
- Knowledge of libraries such as Bootstrap, jQuery, D3.js.
- Basics of the back-end technologies like API's and databases such as Couch Db
- Knowledge of version control systems especially GIT
- Have exposure in CI/CD activity tools like gitlab, Jenkins
- Knowledge of (Node.js, Express)
- Unit-test the code and debug the application.

### EDUCATIONAL HISTORY

#### Anjalai Ammal-Mahalingam Engineering College

B.E. Mechanical Engineering | Aug 2014 - May 2018 | 7.93 Gpa

- Studied theoretical and analytical part of Mechanical Engineering, project planning and ethics
- Worked on my projects with ARK solutions, Inc
